Student Name	Sweety Roselin A

LAB PROGRAMS 27 AND 28

27. Display a Bar Chart of the Popularity of Programming Languages

Question

Write a Python program to display a bar chart of the popularity of programming languages.

Aim

To create a vertical bar chart showing the popularity of programming languages.

Code

```
import matplotlib.pyplot as plt

languages = ["Python", "Java", "C", "C++", "JavaScript"]

popularity = [95, 80, 75, 70, 90]

plt.bar(languages, popularity)

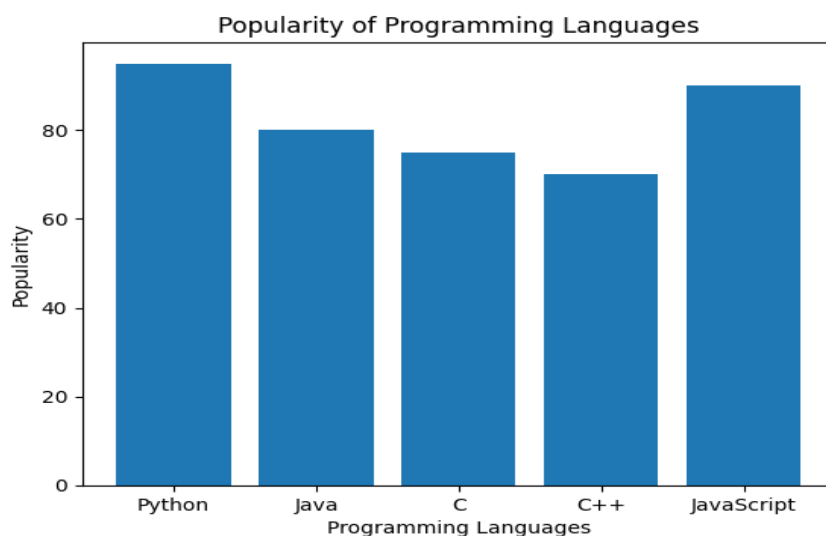

plt.xlabel("Programming Languages")

plt.ylabel("Popularity")

plt.title("Popularity of Programming Languages")

plt.show()
```

Output

Result

The popularity of programming languages was displayed successfully using a vertical bar chart.

28. Display a Horizontal Bar Chart of the Popularity of Programming Languages

Question

Write a Python program to display a horizontal bar chart of the popularity of programming languages.

Aim

To create a horizontal bar chart showing the popularity of programming languages.

Code

```
import matplotlib.pyplot as plt

languages = ["Python", "Java", "C", "C++", "JavaScript"]

popularity = [95, 80, 75, 70, 90]

plt.barh(languages, popularity)

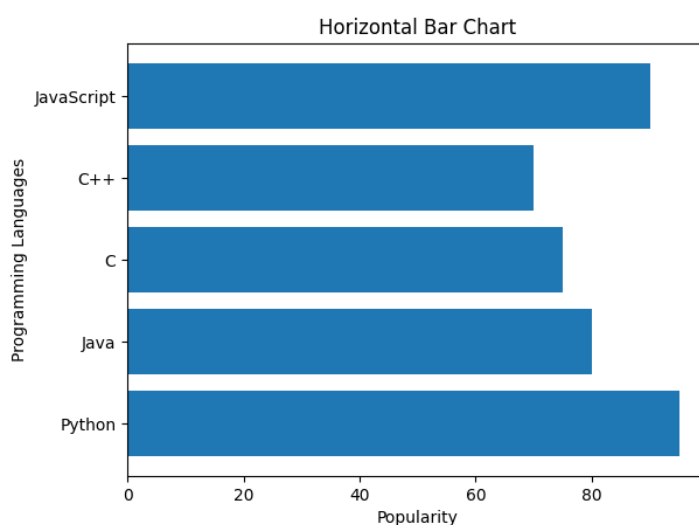

plt.xlabel("Popularity")

plt.ylabel("Programming Languages")

plt.title("Horizontal Bar Chart")

plt.show()
```

Output

Result

The popularity of programming languages was displayed successfully using a horizontal bar chart.
